Notes:

*** If SH is unable to fulfill his O/M responsibilities under the CD, State will assume responsibility for O/M of these areas.

¹ Completion Date includes completion of RA report for that Response Action Structure.

² FEMA requires municipalities to maintain the 100 yr flood drainages.

⁵ EPA will continue to maintain these haul roads and drainage channels until the completion of the work since these are being actively used for the project.

⁹ The City of Eureka and the State will share the responsibilities for the operation of the Open Cell. The City will attend to the day to day tasks while the State will be responsible for the annual maintenance and the closure of the Open Cell.
